

SRCEH's Neighborhood YIMBY Council's Campaign

TAKE THE CRINGE TEST

WOULD YOU SAY...?

The neighborhood already has its fair share of people on welfare

The homeless should only be placed in commercially zoned areas

This neighborhood is not suitable for mentally ill people

Permanent supportive housing for homeless people lowers property values and is a drain on public services

Housing for people with disabilities must be separated by 500 feet

We deserve to be warned when people with mental illness street

We don't want homeless people, but we will accept seniors accept Protestants

If homeless people are going to live here - then I want the building to have:

- + 12 foot walls around it
- + bars on the windows
- + windows that don't open
- + frosted windows so they can't look out
- + a curfew
- + drug testing
